

Professional Tech Support

We are here to help with the technical requirements you have to get the most out of your learning portal.

TOPYX® learning management system (LMS) is designed to be easy to use and easy to modify for your unique learning needs. However, if you need some custom technical work to have your online learning environment configured to meet a specific need, we can help with that too.

\$9,500 / year

for 95 hours of premium tech support*

A dedicated Tech Team resource will be assigned to your account to assist with the development of “technical” related items:

- SSO - Single Sign-on 
- API - Application Program Interface 
- FTP - File Transfer Protocol 
- Database hierarchies 
- Priority support ticket resolution 
- Project management 
- Assist with third party software integration 
- Creation of custom training documents, guides and FAQs 
- Other unique areas where additional technical support is needed 

*Premium support teams operate Monday through Friday 8AM – 6PM ET. Emergencies are handled via our standard support policies.

We are here to help every step of the way! See all of the ways Premium Tech Support can work for you by talking to a Business Development Representative today.
